HEDIS Tips:

- ** A BMI value is not acceptable for this age range**
- ** Ranges and thresholds do not meet criteria for this indicator**
- ** A distinct BMI percentile is required; only documentation of <1% or >99% meet criteria**

Per HEDIS requirements, care must be provided by a primary care physician or OB/GYN as indicated by billing provider specialty. Note: These HEDIS codes are subject to change. These HEDIS gap closure codes do not supersede UnitedHealthcare Community Plan – Michigan billing guidelines, reimbursement policies and payment processes.
