

## Matrix Medical Network Partnership for No Cost In-Home Health Visits

During 2024, HAP is partnering with Matrix Medical Network (Matrix) to offer a no cost in-home health visit with a nurse practitioner. This unique health service is for select HAP Medicare Advantage members. These home health visits are:

- Meant to enhance and supplement a member's relationship with their primary care physician.
- Designed to be a comprehensive health assessment to address gaps in care related to:
  - Risk adjustment
  - Quality measures
  - Care management

The home health visits may include:

- Brief exams, including vital signs
- Active, inactive, and chronic medical diagnoses with associated medication
- Functional status and fall risk assessment
- Personal and social history of drug, tobacco, and alcohol screenings
- Diabetes and cancer assessments
- Depression screening
- Clinical assessment of the patient with management plan
- Preventive and chronic disease case recommendations
- Case management referral (if applicable)

After a health visit, Matrix will send a summary of the results to the member and their PCP.

If you have any questions about this partnership, please email [providernetwork@hap.org](mailto:providernetwork@hap.org). Be sure to put "Matrix" in the subject line.

If you have questions about the assessment and process, please contact Matrix Physician Support:
